

ENVIRONMENTAL POLICY

Huon

At Huon we are committed to environmental responsibility in all our activities.

We will continually improve the management of our operations to minimise impact on the environment and to reduce the exposure of any person to environmental related risks.

We will strive to achieve industry best practice commensurate with our contractual and commercial obligations. We will comply with environmental legislation, regulations and other requirements as minimum standard. We will seek to continually improve our system and regularly review our objectives and targets.

We will adequately train our staff to understand their obligations and we will adequately instruct our consultants, subcontractors and suppliers to conform with prevailing environmental safeguards.

We will document and implement our Corporate Environmental Management system with its corresponding Project System to each site. We will aim to achieve certification to AS/NZS ISO 14001:2004

This policy is available to the public upon request
